

Diploma in 3D Civil CAD Designing

This course is designed for civil engineers, structural engineers, industrial designers and students seeking to acquire 3D civil design skills. The course focuses on civil 2D & 3D CAD drawing, 3D modeling, animation, texturing, rendering & structural modeling using Revit Structure.

Normal Track : 8 Months

Fast Track : 4 Months

- Introduction
- Photoshop
- AutoCAD (2D + 3D)
- 3DS Max (Int/Ext) + V-Ray
- Revit Structure
- Premiere Pro
- Project Work.

Professional Diploma in 3D Civil CAD Designing

This course is designed for civil engineers, structural engineers, industrial designers and students seeking to acquire 3D civil design skills. The course focuses on civil 2D & 3D CAD drawing, 3D modeling, animation, texturing, rendering & structural modeling using Revit Structure and Stadd Pro.

Normal Track : 10 Months

Fast Track : 5 Months

- Introduction
- Photoshop
- AutoCAD (2D + 3D)
- 3DS Max (Int/Ext) + V-Ray
- Revit Structure
- Stadd Pro
- Premiere Pro
- Project Work.
