

Courses Details for Revit MEP

Revit MEP is the design and construction documentation solution for mechanical, electrical, and plumbing (MEP) engineering. Seamlessly collaborate with architects using Revit Architecture software in an intuitive design environment. Minimize coordination errors with architects and structural engineers using the Revit platform and building information modeling (BIM) workflows. And with BIM, provide better decision making and building performance analysis support for the engineer.

Revit MEP

- Getting Started
- Revit Fundamentals
- Basic Modify and Reporting Tools
- Family Creation
- Modeling Essentials
- Building Performance Design Analysis
- Systems
- HVAC Airside
- General Piping
- HVAC Piping Systems
- Hydronic Piping Systems
- Plumbing Systems
- Electrical Systems
- Power Systems
- Lighting Systems
- Fire Protection Systems
- Schedules and Tags
- Annotation
- View Graphics
- Views and Sheets
- Managing Settings
- Worksharing
- Collaboration
- Interoperability

Normal Track : 2 Month

Fast Track : 1 Month
